GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

An Old Claim.

NEW YORK, May 23.—Some years ago when Dr. E. W. Buck was county physician of Hudson county, New Jersey, a man registered as Aloysius Molnar suicided at Hoboken, and Dr. Buck was appointed administrator of a large and valuable amount of property and money found in his room and has since held it. Emperor Francis Joseph of Austria has now instituted suit in a New Jersey court of chancery against Buck for the recovery of this property, asserting that Molnar was really named John Kunnec employed under the Austrain government in a railroad office, from which he stole a large quantity of bonds and fled to America.

Investigation of Railroad Management.

NEW YORK, May 23.—The governing committee of the Stock Exchange this afternoon investigated the matter of the Pittsburg, Fort Wayne and Chicago railroad for issuing and selling from time to time since 1872 to the Pennsylvania Railroad Company its new special guaranteed stock without notifying the Stock Exchange. The committee finally adopted a resolution accepting the explanation offered that notice of issues of new stock had not been given the Exchange through inadvertence, but informing the President of the Railroad Company that hereafter notice of all issues must be given in advance to the Exchange.

Verdict in the Rockford Disaster.

CHICAGO, May 23.—The *Tribune's* Rockford, Ill., special says the coroner's jury to-night after thirteen days' work, rendered a verdict in the theatre horse case which is fully sustained by public opinion here. They find that Henry L. Gay, the architect, through neglect to provide for the great amount of weight called to complete the building according to his plans, is guilty of the deaths of the deceased; that the board of supervisors failed to use the necessary care on examining the plans and specifications, and acted unwisely in not employing a competent architect to superintend the construction.

Resistance in Louisiana.

NEW ORLEANS, May 23.—The *Republic* gives the following account of the assessination of Laws, colored, of East Feliciana. Mr. Duls, of has reached New Orleans and brought with him the coffin that was placed at his door Saturday, and a bunch of Winchester rifle cartridges which were placed there. He also relates that the crowd of illdoers after they threatened him, went on with their information that they would return soon and put this threat into execution. They proceeded to Jackson and rode to the house of James Laws, (colored) and undertook to shoot him through the window. They succeeded in killing Hal. Laws, having only got back. He rose and answered them and was instantly shot dead. This was Sunday night. In reference to the assassination of Laws, Gov. Packard states that just before his return to East Feliciana, Laws wrote him stating that on account of his presidency at the only Republican meeting held in E. Feliciana during the late campaign, and consequent excitement since absence from the parish, his business as a merchant, he feared had been destroyed, and regretted Packard's influence to get him a position in the custom house. Packard further says that Laws told him his life was in danger, as he had testified before the House Senate Commission, given the names of prominent citizens who threatened his life, and as he believed its caused its store to be fired. Packard further asserts that Laws was one of the best and most conservative colored men of the whole Feliciana district. He has previously held several influential positions with the acquiescence of the people and was a tax-payer, owning $30,0 or $40,000 in property. Packard has transmitted the original Laws letter and also an unpublished letter from Sheriff Webber filled in the adjoining parish to Gen. B. F. Butler for campaign use.

CHICAGO, May 23.—The *Inter-Ocean's* New Orleans special gives additional facts of the New Orleans killing affair. John Laws, the deceased, is a Republican member of the Legislature, a prominent, intelligent, industrious colored man. His crime was having testified before the Senate committee last January against the bulldozers. All the colored men who testified before the committee will meet the same fate. Nichols is powerless to protect them. Two Republican postmasters were turned out of the parish last week and no action has been taken.

It is now learned that the Calcasieu lagmen swindlers told a disguised U. S. agent the story of their stolen logs and that he returned to this city and presented the affidavits and bond on which was based the seizure.

A Nice Pair.

HARTFORD, May 24.—In the U. S. District court yesterday John C. Tracey, ex-president, and James L. Chapman, ex-cashier, of the Farmers' and Mechanics' National Bank, had guilty, the former of making false reports and the latter to perjury in swearing to them. The national bank examiner stated that the loss to the bank would be $600,000.

Reduction of Rates.

NEW YORK, May 24.—The *Times* says Vanderbilt, having telegraphed from Europe instructing the New York Central and Lake Shore roads to reduce passenger rates from Chicago to New York from $22 to $15; other trunk roads will make the same reduction. At the same time Vanderbilt telegraphed to his own roads he informed the officials of the Michigan Central of the change, and the latter at night said they would at once reduce their rate to $15.

Snow in May.

BOSTON, May 24.—Four inches of snow fell in Berkshire county, Mass., this morning. It will do much damage will be done to the fruit crop.

Chamberlain's Opinions.

NEW YORK, May 24.—D. H. Chamberlain writes the *Tribune* that he does not support the President's Southern policy. He continues: "I have never regarded the weakness of the Republican party at the South as arising chiefly from over anxiety of colored men to hold offices, as was also stated in your Washington correspondence. In this particular I do not think the record of my own race better than that of the colored. Incompetent and unworthy officers have not been marked by any other lines."

Commencement Day.

NEW YORK, May 24.—The annual commencement of the Methodist Episcopal General Theological Seminary took place here to-day. Right Rev. Bishop Potter officiated, assisted by Bishop Scorborough, of New Jersey, and Bishop Paddock, of Massachusetts. Among the students were present, of whom eighty-six were graduates, and nine received the degree of Bachelor of Sacred Theology.

Salaries Reduced.

PHILADELPHIA, May 24.—The board of directors of the Pennsylvania Railroad Company have decided to make a reduction of ten per cents in the salaries of all employes beginning at the president and continuing downward through all grades of the various departments. An exception is made in the case of laborers and truckmen, who now receive less than one dollar per day.

Good Templars.

PORTLAND, Me., May 24.—At the morning session of the Grand Lodge of Good Templars the report of the united executive committee of Great Britain was referred to a special committee of three. The vote on the question of place for holding the next meeting resulted in favor of Minneapolis, Minn. The special finance and audit committee reported, approving the reports of the financial officers. The Grand Secretary's report on the disbursement of the missionary fund raised last year was received and referred to the committee on finance. Several amendments to the constitution were proposed and laid over until next year. "God Save the Queen" was then sung in honor of the Queen's birthday, and was received with cheers. "America" was given in return, and also three cheers for the President. Adjution was adopted complimentary to thneen as a patroness of the Church of Engl Temperance Society.

Striking Brickmakers.

NEW YORK, May 24.—Five hundred striking brickers at Haverstraw, New York, have been so demonstrative that the town authorities have called on the militia for assistance.

Honors to the Queen.

Brit shipping in the harbor is gaily decora in honor of the 58th birthday of Queen Victoria. The day is observed by British residents of the city.

Refugees Pardoned.

SPAIN, May 24.—The *Republican's* New Orleans special says: The new Spanish consul led on Gov. Nicholls yesterday, and during the conversation said the Spanish government had pardoned all Cuban refugees in this country, and a proclamation will soon be issued to that effect.

Money and Stocks.

NEW YORK, May 24.—Silver bars 126 greenbacks 117½ gold; silver coin 3 discount; gold old 6%; money, 1½@2; government, firm; stocks, dull but steady; Western Union, 93½; Quicksilver, 14½; Pacific Mail, 21½; Mariposa, 3; Wells Fargo, 83; New York Central, 91½; E. 61; Panama 96; Union Pacific, 68; bonds, 1; Central Pacific bonds, 110.

Custom House Investigation.

NEW YORK, May 24.—The custom house committee, after a secret session to-day, examined Luckemeyer, silk importer, who testified that nearly all his goods were undervalued to 40 per cent. There are more silks manufactured than are in demand, and these very silks, if sold in Lyons or London, would bring only reduced prices. He favored specific instead of ad valorem duties.

Henry Himley, sugar merchant, testified it was common for customs officers to take bribes, by passing plainly dutiable goods without examining them. They plainly ask for money. An inspector once said: "What is coming to me out of this if I let it through without examining it?" Inspectors if not paid when examining baggage, would rip sack and turn everything upside down.

H. J. Meyers, proprietor of bonded warehouse, testified that he was compelled to pay fees and political assessments every year, in some shape or other, equaling $800, though the law expressly forbids it.

New Methodist Hymn Book.

CLEVELAND, May 24.—The committee which has been reviewing the Methodist Episcopal hymn book here for ten days past have completed the text for the new book, and given the manuscript to the board of bishops, who will probably report Saturday.

The Presbyterians.

CHICAGO, May 24.—In the Presbyterian Assembly, this morning, the committee on reduced representation reported that the representation of the next General Assembly should be materially reduced. The report was adopted. The committee to which was referred the report of the board of publications reported that eight new books had been published, aggregating 117,000 copies. Imprints of former works aggregated 375,000; six periodicals, aggregating 7,842,130 copies, had been put forth, and the Sunday school and other periodicals make a grand otal of over 500,000 given out monthly. The commission employed 98 missionaries; they have by sale distributed 67,000 volumes, and gratuitously 39,000 volumes, and 4,274,813 pages of tracts. The receipts were $237,000, expenses $216,000. They asked for more help, and made a number of recommendations, which were considered separately.

Indians Removed.

CAMP ROBINSON, Neb., May 24.—The Cheyenne Indians of this agency, feeling very bitter against the Sioux for harsh treatment received at their hands after being defrauded last fall, and not wishing to live near them any longer, requested some days ago to be removed to Indian Territory. After consulting with the commissioner of Indian affairs, Gen. Sheridan has given his authority for the transfer. They will start about the 26th inst., under charge of Lieut. Lawton, 4th cavalry and will cross the railroad at Sidney. Th s band numbers about 1,150 persons all told.

The six companies of U. S. cavalry now stationed here are under orders to march in a few days. They will return to the department—(Here the broke south of Roseburg.—OPERATOR.)

WASHINGTON CITY.

The Forged Resignation of Judge Lewis.

NEW YORK, May 24.—The *Times'* Washington special has full details of the Justice Lewis matter, as follows: Last evening a letter of resignation, purporting to be signed by Chief Justice Lewis, of Washington Territory, was received by the Attorney General. It was couched in the usual language, and requested the immediate appointment of his successor, in order that he might leave the Territory at once. At the Cabinet meeting yesterday Judge Green, of Pennsylvania, was selected for the vacancy, and Lewis notified by telegraph of the acceptance of his resignation. This morning Secretary McCrary, who is an old Iowa friend of Lewis, received a despatch from him, quoting the telegram just received from the Attorney General, and asking an explanation. His dispatch said any resignation received from him was a forgery, as he sent none and did not intend to. McCrary went to the Department of Justice and examined the letter of resignation. Being familiar with Lewis' handwriting, he saw at once the letter was a forgery, executed so boldly that no attempt was made even to imitate his handwriting. The President being consulted, at once withdrew his appointment of Green.

The Chisholm Murder.

The *Tribune's* Washington special says that Secretary Evarts is preparing a letter to Gov. Stone, of Miss., setting forth in very decided terms the opinion of the administration regarding the murder of Judge Chisholm and family, and it will be notice to the Southern people of the position of the President upon the question of all classes of citizens throughout the South, and will furnish an interpretation of his Southern policy which the South does not seem fully to understand yet. There is great dissatisfaction here over Stone's apparent apathy, and the letter will not be particularly pleasant to that official.

Justice Asked.

NEW YORK, May 24.—The *Times'* special from Washington says the President is receiving a great many friendly letters from persons in various parts of the country, begging that he will make an effort in some way to secure the punishment of the murderers of Judge Chisholm and his family in Mississippi. These letters nearly all assert that this massacre, standing unavenged, will be a lasting rebuke to his Southern policy, and even if he is powerless to directly act in the matter of bringing the murderers to justice, he should use his influence with Gordon, Lamar and other Southerners, who have been his advisers and who are in a way responsible for the crime. The President can do nothing, except in the way of exerting moral influence toward punishing the banditti.

Logan Tendered the Brazilian Ministry.

NEW YORK, May 24.—The *Times'* Washington special says Gen. Logan has been tendered the Brazilian mission. A Cabinet meeting decided on the appointmentment on Friday, and Evarts wrote Logan asking his acceptance. Logan, who is in Washington, refuses to give any reason for his declination, and even declines to admit that the appointment was tendered him. The letter passed him on the road.

Cabinet Changes Predicted.

NEW YORK, May 24.—The *Sun's* editorial says: "We are not surprised at the rumors that Evarts' stay in the cabinet is not like y to be long. A significant fact in connection with these rumors is Evarts has just renewed a lease of his house in New York, but has not taken an extended lease of his house at Washington."

Investigation of the Mints.

The *Sun's* Washington special says: Linderman, superintendent of mints, will just have a private inquiry into the charges made against LaGrange, superintendent of the mint at San Francisco. On the whole subject Linderman is silent, for official reasons, but there is good ground for believing, from other sources, that LaGrange will be the beginning of the end of the federal ring of the Pacific coast, so far as it is fed by federal patronage. With all the variety of reports and charges against LaGrange, old and new, no man is better acquainted than Secretary Sherman, who was chairman of the committee on finance when LaGrange's name was before it.

Battery Abandoned.

WASHINGTON, May 24.—Commander Wm. Whitehead, of the steamer *Ngantic*, having decided to leave the battery of that vessel at Cape Town, South Africa, because of the unseaworthiness of the *Ngantic*, his action is fully approved by the Navy Department. She is a white oak vessel, and has been in constant service for the past five years, and reported unseaworthy a year ago.

U. S. Treasurership.

WASHINGTON, May 24.—U. S. Treasurer Wyman has tendered his resignation on account of ill health. Assistant Treasurer Gilfillin will succeed him.

Sherman's Counsel.

CHICAGO, May 24.—The *Journal's* Washington special says Secretary Sherman has authorized nobody to speak for him concerning his financial intentions and says he will give fair notice of any intention to sell gold if he so decided. He deprecates criticisms in advance from Western papers.

No Pay for School Teachers.

A private letter from Columbia says the lower House refused to carry out Governor Hampton's recommendation and make an appropriation to pay salaries of professors of the University of South Carolina, amounting to $ 8,000. The committee recommended no action this session.

More Troops for Utah.

WASHINGTON, May 24.—A letter of Governor Emery of Utah to the Secretary of War, asking for an increase of troops in the Territory has been referred to General Sherman to inquire into the matter and report on the necessity of increasing the military force. General Crook has not had an opportunity to inquire into these Mormon troubles, but the letter will probably be referred to him by General Sherman when he returns to the city. Gen. Crook will then go to Utah for the purpose of consulting with Gov. Emery. If in his opinion any real necessity exists for increasing the force, the additional troops will be ordered.

NOVA SCOTIA.

Story of a Wreck and Crime.

HALIFAX, May 23.—A vessel commanded by Capt. Rideout, was lost on the French shore of New Foundland in 1874. A St. John's paper says a person from Bourne Bay relates the following: The captain had $1,000 on his person at the time the craft went ashore near a hut occupied by an old hunter, known as Jacks. All of the crew got ashore and built a tent. A certain Bourne Bay wrecker, with members of his family, visited the tent and offered to pilot them through the channel. The offer was accepted, and while the party were crossing the pond the members of the crew were shot, three falling at the first volley. The wreckers cut a hole in the ice and put the bodies down after robbing them. Jacks was aware of the circumstance, and was bought over, but becoming scared confessed. The informant also stated that a Nova Scotian craft fishing there found the remains of the captain fearfully mangled under a rock on shore. The people are confident the crew were all murdered by the same gang. Many other vessels and crews he believes met the same fate. He further states that the people at Port Aquord do little else than plunder, and in his opinion would not hesitate to use lights to decoy vessels on the shore. The matter has been placed in the hands of the chief of police of St. John's to investigate. It is said the officers of the H. M. steamer *Eclipse*, now visiting the shore, will be directed to seek information relative to the crimes.

SOUTH AMERICA.

The Tidal Wave to Peru.

NEW YORK, May 23.—The following additional particulars of the disasters occasioned by the tidal wave to vessels loading at the Peruvian guano deposits have been received at Callao, under date of May 20th. The ship *Alida*, crew saved; bark *Shamrock*, crew saved; ships *John Bryce*, *St. Joseph*, *Carrollton* and *C. F. Sargent* were got off badly damaged. The remainder of the fleet had been got off slightly damaged. Another dispatch states that southern guano deposits are destroyed.

CANADA.

Victoria's Birthday.

TORONTO, May 24.—The birthday of Queen Victoria is being universally observed throughout the Dominion. It is a general holiday.

OREGON.

Miss Lizzie Boise, after an extended trip to the East, has returned home.

The fellows who robbed the Chinese on Sardine creek, Jackson county, have been captured.

S. Hamilton, of Roseburg, has been appointed by the governor to a place on the board of regents of the State University to fill a place made vacant by resignation.

Oregon City *Enterprise*: Capt. Cochran & Co. have commenced work on their light draft boat. It is to be constructed at Canemah, and Mr. Wm. Mullins will boss the job.

At Salem a subscription paper is in circulation to raise $1,000 to remove to that place from San Francisco a lot of flax machinery be ought to H. W. Crane. This is the amount of the subsidy asked. Six hundred dollars are already raised.

The Pacific Threshing Machine Company has purchased the Dr. C. H. Hall property, consisting of five acres on State street, Salem, east of the railroad track, and will ere long erect suitable buildings for the manufacture of their machines and horse powers.

Report on Salem's finances to Common Council: Estimates of the probable expenses of the city for the ensuing fiscal year, $10,400. The revenue from licenses and fines was estimated at $3,000. The city assessment roll shows a property valuation of $1,300,000, upon which a levy of eight mills was ordered, which it is presumed will raise the required amount of revenue.

We have the following signed "W. C. Crantner, Dayton, Yamhill county:" A camp meeting under the auspices of the Evangelical Church will be held on the land of Enoch Cooper, three miles southwest of Wheatland, Yamhill county, opening June 21, 1877, to continue about one week. All interested in the spread of the cause of Christ are cordially invited to attend.

A farmer gives this advice through the *Record*: Now that all the farmers have wheat on the brain awfully, and potatoes selling at 25 cents per bushel in Western Oregon, but few potatoes are planted this spring. If I had 60 acres of good summer fallowed land on hand and plenty of potatoes, I would plant the whole of it. All through May and up to June 25th potatoes may be planted for a late, sure crop. Potatoes will be potatoes here next fall.

Thomas J. Hannah of Santiam has a gun three hundred and twenty-five years old. It has been handed down through the oldest son, whose name was invariably Thomas. This gun was in the war of 1812 and carried by the grandfather of its present owner. It was captured by the British and afterward recaptured and stacked away in the armory at Washington seven years. Mr. Hannah went from his home in Illinois to Washington, and after a tedious search found the old family gun. The barrel is four feet four inches ong.

The largest contributor to the revenue of England is said to be a brewing firm, which pays about $5,000 for every working day in the year.

LATEST WAR NEWS.

Duke Nicholas Makes a Remark.

LONDON, May 24.—The *Times'* Bucharest correspondent telegraphs as follows: Grand Duke Nicholas has been stopping here some days, and it is asserted that he during that time has remarked that he intends to enter Constantinople to make the Turks feel that they are crushed, although he doesn't intend to retain the city.

Understanding between Russia, Germany and Italy.

There is a firm belief here among well informed persons that a tacit if not clearly defined understanding exists between Russia, Germany and Italy, and that the court party in Austria is in accord with other Eastern potentates. The Hungarian element is of course hostile but utterly powerless to oppose such coalition. Many incidents may be construed into a confirmation of the above belief, the most important perhaps being the peremptory closing of the Danube navigation by the Russians after the Turks had promised to allow uninterrupted commerce, and the recently developed movement of the corps westward of the crossings beyond which the anti-Russia element of Europe had virtually decided they should not go without remonstrance.

A Great Battle Probably Begun.

LONDON, May 23.—The following is from the *Daily Telegraph*: Batoum, Wednesday P. M.—There was a tremendous cannonade to-day from the Russians. A battle has just commenced, and the firing is becoming general along the entire line. The Turkish batteries are replying vigorously. The utmost enthusiasm prevails among the Otton an troops. The Bashi Bazouks are preparing for action. Everything indicates a desperate effort on part of the enemy. It is stated that the Russian force assigned to the assault of Batoum has been strengthened by 20,000 men just arrived from Ardahan. It is reported that the Grand Duke Michael commands the attack in person. The Turks are sanguine.

A Vienna dispatch reports that the Turkish troops which fled from Ardahan have been defeated in the mountain pass near Kars. The same correspondent states that notwithstanding the most complete preparations, the passage of the Danube is not expected before the 8th of June. The Czar will probably witness the operations at Ibrail or Tumia.

ERZEROUM, May 23.—Tuesday night the Russians were moving rapidly forward in the direction of the Turkish left.

Russians Steadily Advancing.

ERZEROUM, May 24.—The Russians are extending their left wing in a southerly direction. Detachments of Cossacks have been seen near Van Cuank. The Russians are reported to be within a few hours' march of it. Constant skirmishes occur. A Persian camp composed of 10,000 infantry and 2,000 cavalry is stated to have been formed at Celmast, near the Turco-Russian frontier with the object of defending Persian neutrality. A simultaneous attack upon the Russians is expected to be made to-morrow by Mukhtar Pasha and Sashin Pasha. The Grand Vizier and all ministers have brought their private horses to the Minister of War, in response to a requisition for the horses of all civil and military functionaries for the army.

What Austria Proposes.

VIENNA, May 23.—The question now raised is whether the 20 Austrian divisions mobilized might not seize Belgrade and Semendria. It is rumored that serious differences have arisen between Count Andrassy and Archduke Albrecht.

The Turkish Cavalry.

LONDON, May 23.—A Varna dispatch says all Circassian cavalry officers here have been ordered to Constantinople for the purpose of organizing 25 regiments there and at Adrianople.

Turkish Officers Disagree.

KISCHINEFF, May 24.—Turkish deserters say there is bad feeling between the Turkish generalissimo and Achmed Mezod Pasha, second in command. The latter wishes to invade Roumania, while the generalissimo insists on defensive tactics.

Court News.

ST. PETERSBURG, May 24.—Prince Milan has received permission to pay his respect to the Czar at Ploiesti.

BUCHAREST, May 24.—Grand Duke Nicholas has congratulated Prince Charles upon the independence of Roumania.

Mobilizing the Cossacks.

VIENNA, March 24.—The Russians are mobilizing a reserve of 150,000 Cossacks on the Don. This Territory has already furnished 40 regiments and 21 batteries for active service.

The Russian Chancellorship—Gortschakoff's Health.

BERLIN, May 23.—Physicians have ordered Prince Gortschakoff to go to Wildbad. Count Schouvaloff will probably act as Vice Chancellor in Gortschakoff's absence.

Disposing of the Provinces.

LONDON, May 23.—The question is being discussed in Vienna whether or not it is advisable to incorporate Bosnia, Herzegovina and Servia into one State under an Austrian archduke.

Greece Declines to Intervene.

The Greek minister at Vienna has given most decided assurances that the rumors that Greece is to join in the war are unfounded.

Starving Jews.

Seven hundred Jews, deprived of a livelihood by the closing of navigation of the Danube, destitute, houseless and almost starving, in Widdin, have taken refuge under the walls of the fortress, in the rear of the bombardment.

Anglo-Russian Protectorates.

LONDON, May 24.—A Berlin dispatch says it is universally believed at St. Petersburg that the Russian government would offer to Constantinople and the Suez canal being placed under the protection of England, provided Russia is allowed to protect Roumania, Bulgaria, Servia and Montenegro and annex the village of Erzeroum.

The Attitude and Policy of Greece.

LONDON, May 24.—A correspondent of the *Times* at Athens, reviewing the attitude of Greece, says: In this small democratic State the policy of the nation is not decided by the government nor by the Chamber, but by the whole people. The policy of a majority of the Greeks is now pretty clearly defined. While things remain in the present uncertainty, they will observe an expectant attitude and prepare for a Russian advance rapidly. They will declare war against Turkey in order to create a Greek question, and show practically, by the rising of their race, what is slave and what is Greek. Should the Turkish fleet be destroyed, or even engaged elsewhere, so that the Greeks are relieved from the fear of bombardment of the seaboard, their anti-Turkish sympathies would predominate even to the length of rebelling if the government refused to declare war, and should England in any way be involved in the war the Greeks would seek an English alliance on terms which will not oblige them to fight with the Turks against the Christians. As a recompense, they will ask only that no part of Hellas shall be given to others than Greeks.

Turkish Troops in Asia Minor.

MANCHESTER, May 24.—The *Guardian's* correspondent at Ragusa telegraphs as follows: I have just returned from Albania. The Turks about Scutteri and Podgoritza number 20,000 regulars, with 40 cannon and about 30,000 Albania Bashi Bazouks. They received orders on Tuesday to advance in force along the Moratcha valley to attempt the capture of Danibrad.

Turks Despondent.

Turkish officials in Albania are very despondent. Many express the belief that the days of the empire are numbered. A great Russian victory on the Danube would probably be the signal for a general revolt in Albania, Epirus and Thessaly.

General War Notes.

LONDON, May 24.—A correspondent at Belgrade reports that the government ordered the formation of twelve new battalions. All the reserves of the sedentary army are summoned to assemble, and all troops have been ordered to present themselves on or before May 29th fully armed.

Prince Milan will not go to Bucharest until after the next meeting of the skuptchina.

The *Standard* has the following from other points:

It is believed at Constantinople that the Russians have arranged for a passage through Servian territory.

The combined forces of the Russians are marching against Muhktar Pasha's position at Oli Bardes, but Muhktar expects to be able to hold his ground.

The Servian police yesterday removed the placards on the walls in Belgrade threatening Prince Milan's expulsion unless he renews the war. The general opinion in Vienna is that he will do so when the Russians cross the Danube.

SYRETA, May 23.—An extensive overflow of the Danube is reported. The road from Rutschuk is flooded.

A Belgrade special confirms the report of Servia's military preparations.

BY ATLANTIC CABLE.

Bank of England.

LONDON, May 24.—Bullion in the Bank of England decreased £138,000 the past week.

Bank of France.

PARIS, May 24.—Specie in the Bank of France increased 23,000,000 francs the past week.

LONDON, May 24.—Silver, 54 1-16d; bonds, new, 5s 107; Erie, 6½.

American Catholics and the Pope.

ROME, May 24.—The Pope received the American pilgrims to-day. Archbishop of Philadelphia read the address to his holiness, expressing affection of American Roman Catholics, and affirming that the sufferings of the Pope are theirs and distance increased their devotion. Another bishop read the address of the Archbishop of New York, expressing the same sentiments. Subsequently nine of the bishops presented the Pope the offerings of their dioceses, amounting to $25,000. Other offerings were presented by representatives of American Catholic associations. The Pope expressed his joy at seeing himself surrounded by the faithful who had come from such distant lands. He spoke of the faith and infallibility of the church and dwelt in detail upon the progress of the church in America. He alluded to the persecutions to which the church is subjected in Europe, thanked them for their offerings and gave them his blessing.

Queen's Dinner.

BERLIN, May 24.—The Crown Prince and Princess will give a state dinner to-day at Potsdam in honor of Queen Victoria's birthday. The members of the British embassy and several distinguished generals will be present.

Bismarck at Work.

BERLIN, May 24.—Great activity prevailed at the foreign office while Bismarck was here, and an active interchange of telegrams with ambassadors abroad, particular the ambassador at Rome. From them and other indications it is concluded Prince Bismarck is about to assert his influence upon the course of affairs.

Paris News Items.

LONDON, May 23.—A Paris dispatch says Duc de Cazes issued a circular protesting against the supposition that the new ministry entertains any idea of departing from neutrality or tolerating manifestations of any kind in France against foreign powers.

It is stated that Don Carlos was escorted to the railway station by detectives.

No Postponement.

PARIS, May 24.—There is no truth in the assertion that the Paris Exhibition will probably be postponed.

No News of the City of Brussels.

CORK, May 23.—No news has been received of the steamer *City of Brussels* or tug *Kingfisher*.

Grant in England.

LONDON, May 24.—Liverpool advices say Fairchild, U. S. Consul there, is absent, and that Badeau, Consul General at London, is going there to receive ex-President Grant. The Mayor of Liverpool has tendered his hospitalities to Grant.

THE TURF.

Trotting at Point Breeze.

PHILADELPHIA, May 23.—At Point Breeze to-day the 2:35 class was won by Hunter, Phil Dougherty second; best time, 2:28, was made by the latter.

Mystic Park.

BOSTON, May 24.—Mystic Park races, 2:27 class Lady Foxey won, Joe Ripley, 2d; time, 2:25, 2:27½, 2:28½. The horse James G. Blaine valued at $8,000 fell dead during the second heat, having ruptured a blood vessel.

Poughkeepsie Races.

POUGHKEEPSIE, May 23.—The 2:27-class race was won by Alley in three straight heats; time 2:20, 2:35½, 2:30.

Pacific Coast Turf Matters.

In response to a call for a convention to meet at the Grand Hotel last evening, there was quite an assemblage of prominent turfmen and delegates from associations interested. J. C. Simpson, Robert Beck, W. Shipper, Harmon Bay and J. Babcock were appointed a committee to arrange dates for the respective meetings. Report recommended the opening meeting to be held at Chico, September 3d; Marysville, 10th; Sacramento, 17th; Stockton, 24th; San Jose, October 1st; Oakland, 8th; Reno, 15th; San Francisco, 22d; Los Angeles, November 5th, which was adopted. There was a good deal of discussion as to circuit classes, and it was finally voted there shou d be three trotting classes and two running each association superintending whatever others they saw fit. The trotting classes were 2:23, 2:35 and 2:30. Running mile heats free for all, and two mile heats free for all; amount of premiums to be at the discretion of individual societies. Entries to trotting classes to close the 20th of August; running the night before the races. The most important business transacted was the passage of a resolution which foreshadowed the organization of a Pacific coast association for the government of trotting and pacing. A convention is to be held in San Francisco August 1st, composed of delegates from all courses, to adopt a code of rules and elect necessary officers and to perfect the organization. A committee of five was appointed to frame by-laws and rules, and report at the meeting in August. The committee consists of Cairn Simpson, chairman; H. W. Seale, of Mayfield; Fred. Arnold, of Stockton; W. H. Chamberlain, of Re

FRIDAY MORNING, MAY 25, 1877.

NOT REASSURING.

It cannot be said that the President's policy so-called, is not having a fair trial; but doings in the South do not reassure those who had hopes that with the change of policy there would be suppression of violence and enforcement of justice and order. The political murders of recent perpetration in Mississippi and Louisiana are dreadful to contemplate. The worst of it is that the authorities of those States are confessedly powerless to enforce the law and dare not attempt to bring the authors of outrage and murder to punishment. The cautious and cold-blooded reply of Gov. Stone, of Mississippi, to the wife of Judge Chisholm who had appealed to him for protection against the men who had mortally wounded her husband and murdered her children while they were clinging to the father for safety, shows how an Executive is himself intimidated by the lawless elements to whose acts of violence he owes his position. It is a harrowing detail. Correspondence of the New York *Tribune* asserts in the most positive and solemn way that the deed was done by representatives of "a band of cutthroats that controls the politics, lives, labor and votes of Mississippi." The Governor, the writer declares, will do absolutely nothing. Chisholm was a native of the State and one of its few white Republicans of prominence and influence. He had been guilty of the crime of procuring the indictment of thirty-two prominent Democrats by the United States grand jury for the practices by which the State's Republican majority of thirty thousand was violently overthrown. The immediate pretext for the murder was the assassination of a man named Gully by some unknown person, believed, however, to be a man named Rush, who had attempted the same crime once before. Without the slightest reason for it Chisholm was accused of instigating the crime; and this was the pretext for getting rid of a prominent political leader.

In Louisiana men who are guilty of having testified before the Senate committee as to the methods by which the bull-dozers prevailed in that State are also marked out for slaughter; and the Governor of that State, like him of Mississippi, is powerless to bring the offenders to justice. In all this there is but a single object and that a very simple one. It is to annihilate political opposition and to make it impossible to reorganize the hated Republican party. In a number of the Southern States there is now but one party, and the only safety for its opponents is to abandon their efforts to restore their organization, hold no conventions and nominate no candidates. For the present the South may as well be given up wholly to the Democratic party. Then, after they get done killing for past offences, there will probably be peace. We are advised not to believe these terrible things. It would be a relief, indeed, not to be forced to take notice of them or to give them credit. But the testimony enforces attention and will not be ignored. It is highly proper for Secretary Evarts to announce to the South that the President's policy is misinterpreted if it be supposed that its intent is to give license to proceedings of this character. A solid South, made solid by methods like these, will speedily make a solid North. Regretfully as we should witness a sectional division of parties for the future, even that would be preferable to acquiescence in the suppression by violence and murder of free political action in nearly half the States. This was the old madness of slavery. If necessary, it can be met again.

THE UPPER RIVERS.

In an article relating to transportation on Columbia and Snake rivers the Lewiston *Teller* emphasizes the position that the construction of locks at the Cascades and Dalles should not be postponed for improvement at other points on those streams. The principal necessity is stated to be the improvement of the portages, so that boats may pass from Lewiston to the sea. Quite true. This done, anybody who has boats may run them. But this great work cannot be done in one year, and perhaps not in five years. Even with an adequate supply of money in hand for the whole work, it would take much time. It is an enterprise which will require from first to last many millions of dollars. This money can be obtained only by appropriations in such installments as Congress can be induced to allow. A beginning has been made for the locks at the Cascades. Another appropriation for the same place must be had from the next Congress. It will be difficult, therefore, and perhaps impossible, to get an appropriation immediately for the opening of work at the Dalles. These delays accordingly must be taken into account. Let our representatives in Congress do the best they can, they will not succeed in getting the whole sum of appropriations needed, amounting to several millions, for a number of years. Other sections are clamorous for appropriations, and we cannot reasonably hope for exceptional favors. This is the situation, plainly stated. While these greater enterprises are in progress, and the country is waiting for their completion—as it must wait a considerable period—the rivers ought to be improved at other points where moderate sums will do the work. Such a policy will afford the upper country an outlet that will serve till the Columbia can be opened at the principal points of interruption. There is no occasion for postponing the construction of locks at the Cascades and Dalles; nor on the other hand for neglecting river improvement at other points. But, as we have remarked before, the completion of the greater work is necessarily a good deal in the future; and meantime the rivers should be improved at other points, where it can be done in short time and with moderate outlay. Among the most important and necessary of these improvements is that of Snake river from its mouth as far up as Lewiston. This would accommodate a great wheat country.

THE WAR.

The Muscovite is steadily pushing his columns, and the indications are that he will soon begin to get in his work. It is impossible to see how Turkey, even in her defensive position, can withstand the impetuous forces that Russia is pouring down upon her. Mr. Boker, our Minister to Russia, expressed the opinion in Philadelphia, a few days ago, that within a short time after Russia had massed her armies on the theater of war she would carry everything before her, unless Turkey should find allies. The aim of Russia, he says, "was, primarily, the amelioration of the condition of the Christians under the rule of the Sublime Porte. This was the object of the war at the beginning; what will be the ultimate end remains for the future to disclose." He is sure, however, that Russia cannot become permanent mistress of Constantinople. To this neither Austria nor Germany would submit, for the reason that it would practically close the Danube: for without the freedom of the Bosporus the commerce of the [illegible] would be closed except as to the Black Sea. But Minister Boker is of opinion that there is an understanding on this subject between Russia and Austria and Germany; and recent dispatches intimate that a like opinion is prevalent in English diplomatic circles.

THE POSTMASTER GENERAL'S VIEWS.

A letter recently written by Postmaster General Key to his brother in Tennessee has just been printed. It shows the anxiety of the Southern member of the cabinet to build up an administration party in that section; but people with practical views of politics, or rather with sound comprehension of the present political situation, will not see much reason to expect that the South will trade off its majority in Congress for patronage, in the way proposed by Mr. Key in the following extract from his letter:

To give the President the power to carry out his Southern policy it is important that he have a majority in both houses favorable to his administration. Whether he shall have this majority depends on the Southern Democrats. If they oppose the administration, elect a Northern Democrat, such as Randall or Sayler, to the Speakership and ally themselves with disaffected Republicans to fight the administration, he will be compelled to use his official patronage in such way as to give him strength in his own party; whereas, should Southern Democrats wisely extend him a support, he will be able to deal his patronage to them liberally and revolutionize the system of federal patronage which has existed in the South since the war. Southern Democrats now have the power to redeem the South if they see proper to use it. The President is firm and determined in his Southern policy if the South will give him the support necessary to carry it out.

In a campaign made memorable by fraud on the ballot boxes, Cincinnati was carried last October in the name of reform. A few days ago the sheriff of the county was found guilty of participation in the frauds and in procuring the escape of a witness who was to disclose them, and goes to the State prison. This result was brought about by a singular circumstance. Sheriff Wallace, fearing exposure of the methods by which the election was carried, gave the advertising of his office to the *Times*, a Republican paper, in order to placate it. This aroused the anger of the *Enquirer*, the regular Democratic organ, and it opened on the sheriff in lively style. Its position in the councils of the party gave it a clue to the frauds, and through its desire for revenge the whole business was unearthed. It is a warning to future sheriffs not to go back on the *Enquirer*.

It will be singular, indeed, if the person who perpetrated the base fraud on Judge Lowis shall succeed in escaping detection. There ought to be no difficulty in bringing the forger to the light. It is the duty of the department to follow the matter up and punish the act, if any law can be found for it. If the fellow can't be punished by positive statute he can at any rate be punished by exposure. To-day's dispatch from Washington indicates a purpose to follow him up.

It is entirely proper, of course, for a chairman of a State Central Committee, especially if he happens to be a Postal Agent, to have an official organ. People don't like to pay money for "organs," but when one is issued gratuitously it's all right. The Postal Agent's publication is entirely welcome to the honor of being the "official organ of the party."

Loss to California this year on the wheat crop alone, resulting from drouth, will hardly be less than twenty-million dollars. If prices remain strong it may be even more. Loss to Oregon from same cause will be *nil*.

FRIDAY MORNING, MAY 25, 1877.

CITY.

SAVED FROM INFAMY.—By the steamer there arrived two young women—respectively, 16 and 17 years—who, we stand, were brought to this city for press purpose of entering a house of dispute. These girls, so it is stated, were induced to take passage on the steamer from land through the persuasion and misrepresentation of a certain woman of notorious bad repute, who has resided for some time this city, and who went to San Francisco a few weeks ago. They were induced to go on board on the promise of being with respectable homes in Portland. On the steamer sailed, the girls learned to their dismay and shame that they were being conducted to a life of infamy. They were in time in appealing to Capt. Mackie, who, hearing him the circumstances under which they were induced to take passage, asked for his protection. This, the gallant Captain promised them they should have. Some other gentlemen passengers, learning the circumstances of the case, assured the young ladies that they should be protected. On arriving at Astoria a well-known gentleman of this city, who was on board, telegraphed to Chief Lappeus, requesting him to be at the wharf and look after the two misguided girls. The chief was on the dock when the steamer arrived, and meeting the party, put them in a hack and conveyed them to "The Home," where they will remain at present. We understand that the girls will soon be sent back to their friends in San Francisco on the return voyage of the *Ajax*.

THE SCIENTIFIC EXPLORATION.—From the Sitka *Post* of April 20th we learn that Mount St. Elias expedition, consisting of Messrs. Taylor and Myer, Lieut. Wood, of the Infantry, Corporal Ogg and Private Mason, of company G, and Private Crissman, of company M, 4th Artillery, and four Sitka Indians, started out for the scene of their explorations in one large canoe, on the 24th ult. They have received there four days afterwards a letter to the effect that they had reached the northern end of Chichagoff island (about ninety miles from Sitka) in safety. The evening previous to their departure Messrs. Taylor and Wood gave a ball, at which the *beau monde* of Sitka enjoyed themselves till a late hour. The *Post* paper says: "The ascent of Mount St. Elias is considered to be a most difficult and dangerous undertaking. It is regarded by many as the highest mountain of North America. One of the objects of this expedition is to determine its exact altitude. It will be a feat to make the ascent of such a peak in such latitude, and we wish these gentlemen success and a safe return."

REMOVING THE TROOPS.—Mr. A. G. Dudley, writing from Sitka, A. T., under date of 16th, says: "The removal of the U. S. troops from this Territory, and its transfer to the control by the Treasury Department, in the manner proposed, is a measure which, for the better, more general and only practicable way that protection can be secured to persons and property in this Territory beyond the settled limits at Sitka, meets with the approval of every citizen of this place and elsewhere in the Territory interested in its welfare, affording that security and encouragement long needed for the prospecting and mining of the rich mineral and other resources known to exist in the Territory, but neglected only for the want of such protection as well as giving promise and stimulus to the efforts for prosperity and the early privileges of self-government."

EXTRAORDINARY EGG.—And still another triumpheth. Mr. Geo. Give of [illegible] creek, Clackamas county, has exhibited at this office an egg of extraordinary size. The hen that laid the egg is entitled to cry the first time this time certain, for she laid it successfully with an egg 10 inches circumference the long way, and 7½ inches around the middle. The most remarkable feature is the fact that in the center of the large egg is another one (about the size of an ordinary egg) which is perfect in every respect. Mr. Gives informs us that he has several such eggs.

ARRIVAL, ETC.—The steamer *Idaho* arrived here yesterday from the north, bringing considerable arms, military accoutrements, etc., belonging to the military posts at Sitka and Fort Wrangel. On her next trip the steamer *California* all the troops stationed at these posts (which have been abandoned by order of the Secretary of War) will be brought down. We understand that a petition has been circulated, and very generally signed by the residents of these places, protesting against the action of the general government.

REVERSIONARY INTEREST PURCHASED.—In the *Advocate* it is learned that the trustees of the Portland Academy and Female Seminary have purchased the reversionary interest of W. W. Chapman and wife in the academy block, receiving a fee simple deed therefor. This completes the title, and gives the trustees full control of the property. It is one of the most valuable blocks in the city, in a sightly location and desirable neighborhood.

ELECTION OF TRUSTEE.—Says the *Advocate*: Hon. A. C. Gibbs was elected President of the Board of Trustees of the Taylor street M. E. church on Tuesday evening, for the unexpired term of the late President, Abernethy. F. S. Akin was elected Treasurer at the same time.

STEAMER CALIFORNIA.—The steamer *California* arrived at this port yesterday evening at 4:30 o'clock from Sitka and way ports. She sailed from Sitka on the 12th inst., and experienced tolerably fair weather.

FESTIVAL.—The ladies of the Unitarian society will hold a strawberry and floral festival in their chapel, next Tuesday evening, 29th inst.

As a general thing, a girl who can waltz seven hours is too delicate to wrestle with a washtub or superintend a cooking stove.

Fine opportunity to-morrow to take a ride to Vancouver and the Cascades or a run to Aurora. Improve your golden chances.

J. H. Roork has been in town for two or three days from Klamath reservation. He reports all quiet in his section. He left yesterday.

Rev. B. S. McLafferty, Baptist minister of Oakland, Cal., who has been visiting here for a few weeks, returned to California by the last steamer.

A large drove of fine beef cattle came across on the Stark street ferry yesterday. They came from Eastern Oregon and are to supply the markets here.

Mr. Woodhead, an old Portland "print," formerly connected with the compositorial staff of the *Bulletin* and *Herald*, is now residing in London.

Frank E. Arnold, formerly clerk in the Portland postoffice, was, at last accounts, en route from Laramie City, Wyoming Territory, to the Black Hills.

Mr. A. B. Hallock has just returned from Astoria, where he has been for the past week superintending the putting in of a large force pump for Capt. Flavel.

Capt. Roswell Lampson, the newly appointed clerk of the U. S. Circuit and District Court is in the city. He will assume charge of his office about the 1st prox.

What this country needs more than anything else is a machine for sewing on shirt buttons. Such an arrangement would bring tranquility into many a disturbed household.

Mr. Chas. B. Moores, who was Centennial correspondent for the OREGONIAN, is among the passengers on the incoming steamer. He comes to make Oregon his future place of residence.

The annual examination and exhibition of the pupils of St. Mary's Academy will take place next month, and promises to be of unusual interest. Several young ladies will graduate this year.

The *P. C. Advocate* came to hand as usual yesterday afternoon, the reliable (?) downstreet contemporary to the contrary notwithstanding. Nothing like being accurate and "wide-awake," you know.

The *Sentinel* says: The annual exhibition of St. Michael's College will take place on Monday July 30. Already the pupils are preparing an entertainment calculated to please both parents and patrons, a large number of whom we hope will be present.

According to a recent number of the *Paris Register*, Mr. J. Mortimer Murphy had returned to his office in the Palace du Havre, from a tour through Italy and Algiers, but was to leave in a few days for Dublin via Brussels, London and Glasgow.

The sprightly young man who styles himself the "wide awake reporter" of the *Standard*, said Wednesday that Wm. Gibbons had obtained a judgment in the U. S. District Court against Capt. J. A. O'Brien for $600. Better consult the court proceedings a little more carefully next time, "wide awake."

PICNICS.

SCOTCH PICNIC.—Next saturday, 26th inst., the members of the St. Andrew's Society and their friends will hold a picnic at Aurora. A very enjoyable and attractive programme of Scottish games and sports will be carried out at the beautiful grounds near Aurora. Tickets for the round trip $1. An opportunity is thus afforded all who desire to enjoy a pleasant ride on the cars, and a day's recreation away from the dust and heat of the crowded city, amidst sylvan groves and shady nooks.

EMMET GUARD.—The members of this well known military organization have decided to hold their annual picnic next Sunday at East Portland Park. At 9 o'clock A. M. the company will form at the armory and proceed immediately to the grounds, where the sports of the day will commence immediately. Prize foot race for men, race for prize, ladies' foot race for prize, sack racing, wheelbarrow racing, leaping, etc., for prizes; dancing to continue till 9 P. M. Good music has been provided. Admission to the park 50 cents; ladies and children 25 cents.

TURNERS' PICNIC.—Our German friends will give their annual excursion next sunday. Aurora has been selected as the place for holding the picnic. The train will leave the east side depot for the grounds at 9:30 A. M. Tickets for the round trip, including admission to the park, for adults and children over 12 years of age $1 50; children from 5 to 12 years old, 50 cents. Music will be furnished by the Aurora brass band. Refreshments of all kinds can be obtained at reasonable rates. Hot and cold lunches furnished by the Aurora Restaurant. Tickets must be purchased before entering the cars. No doubtful characters will be permitted by the committee.

S. S. PICNIC AND EXCURSION.—Saturday a grand picnic and excursion will take place from this city to the Taylor street and Portland Avenue Sunday schools. The commodious steamer *E. N. Coats* will leave the foot of Washington street at 7 A. M., proceed to Vancouver, landing the picnic portion of the party, thence will make an excursion to the Cascades, carrying all who desire to view the beautiful scenery of that section. Returning will stop at Vancouver, and reach Portland at 6 P. M. the same day. This will be an enjoyable affair, and all are invited to attend. An arrangement has been made with Mr. Kaufman, restaurateur of this city, by which refreshments will be furnished on the boat, at reasonable rates, all who prefer to leave their lunch baskets at home. The object of the excursion being purely for pleasure and recreation.

Tickets for either the picnic or excursion for sale at J. K. Gill's book store, J. L. Royal's boot and shoe store, or at Parish & Cornell's office.

SUNDAY EXCURSIONS.

SALEM, May 23, 1877.

TO THE EDITOR OF THE OREGONIAN:

It is, or ought to be, a matter of deep regret that the managers of the Turn-Verein picnic at Aurora should have chosen Sunday for their excursion. They surely could not have fully considered the magnitude of the wrong they were doing. Not only a wrong to the good people of Aurora, but to Portland and Salem, and (through the influence of bad example) to all Oregon. Such an excursion desecrates the Sabbath; it hurts and grieves Christian public sentiment everywhere; and, more than all it sets at defiance the divine law of the Sabbath, and the God of the Sabbath. It starts the Sunday railroad trains thus depriving the railroad men of their day of rest, which nobody needs any more than they. Why should those faithful and laborious public servants (upon whose steadiness our lives depend), why should they be deprived of their rest-day? Do they not need rest as much as other men? What have they done to us, that we shou d care so little for their physical and religious welfare? I am not acquainted with the people of Aurora. But it is fair to assume that theirs is an Christian community. At any rate, they have a large church, as any traveler can see from the cars. How will their sabbath be broken, and their worship disturbed by such an irruption!

I have had a similar experience. Once I lived near a large city (San Francisco) which used to inundate us with their Sunday excursions; and I saw but too plainly the bitter fruits of that wickedness. The Californians are a great people—doubtless—but they have some customs which Oregon cannot afford to imitate, and this Sunday railroading and reveling is one of them. The story of "poor Tray," not to speak of ancient Lot, furnishes a case in point.

If it were only for once that the Sunday trains were to be started it would be bad enough. But alas! the matter is not likely to stop here. Bad examples are "catching." The beginning of sin is like the breaking forth of waters. It was easier to open Pandora's box, than it was to shut it again.

Good men ought to do all they can to discourage these things. We cannot afford to have the Christian Sabbath broken down, and with it Christianity and the Bible. The wrath of God will follow.

Respectfully, ADDISON JONES.

American farmers get about twice the yield of wheat per acre that Russian farmers do, and the English farmers beat us in the yield per acre fully as much as we do the Russians. The secret of it is that land is plenty in America and Russia, compared with that in England, and that we both farm more carelessly than Englishmen do, who have to make the best of their limited facilities. Manure is only rarely used in Russia.

Texas is very "Democratic." A Democratic paper of the State frankly says: "The present exorbitant taxes in our State are doing much to retard immigration. State, county, and city taxes, when added together, take about all a man has."

FROM THE COAST.

Our enterprising correspondent residing at this station, sends the following notes:

More timbers are now being hauled on the ground for the new flouring mill.

A new frame building now in process of erection 24x30, 30 feet high, designed for a store house, is being built by Messrs Turner & Co.

Last Saturday evening Union Lodge No. 105, I. O. G. T., of this place, elected James Wilson, and R. E. McKinney as representatives, and V. C. McKinney and J. R. Miller as alternates to the Grand Lodge.

A few days ago a preliminary meeting was held to consider the propriety of celebrating the Fourth officially at this place. We regarded it as a proposition, and will have another meeting saturday, the 26th inst., to mature plans, measures, etc.

Turner, situated six miles south of the capitol of the State on the O. & C. R. R. also on the beautiful and meandering stream, Mill Creek, possesses advantages that many of her sister villages can not boast of. Her natural facilities are apparent, and she bids fair to become a town of life, energy and prosperity. Some of her advantages are classed as follows:

We are the center of a large agricultural district, and look where you may at present, you eye will take into view large and beautiful fields of growing grain. Our farmers are industrious, frugal and we do awake to their interests. They anticipate a reward for their labors, and all are sanguine, that unless the war soon ceases, which is not very apparent in the East, that they will be worthily and most largely rewarded for their labors.

Again Turner is the terminus of a mail route triweekly, running from this point via Amity, Sublimity, Scayton, on through to Mahama and we apprehend that the line is not far distant when this route will be extended across the Cascade Mountains over the *Minto Pass* to Winnemucca. And, not least of all we possess unlimited water power, and already a portion of the same is being utilized. The grain that is now stored at this place, which is no small quantity, is elevated, cleaned, and made ready for shipment by this power.

Last Sabbath the 20th inst., the people of this place and adjoining vicinity enjoyed a religious treat. The elegant new church, costing $1,500, was opened for the reception of worship, and the same was dedicated. Rev. A. J. Hunsaker, assisted by Revs. Short and Sperry, preached the dedicatory sermon. He delivered the sermon with clearness and conciseness, which is characteristic of the speaker. A very large and attentive audience was in attendance. The sum of $338 was subscribed to assist in liquidating the indebtedness of the church.

Nerves That Quiver.

I feels that ache, stomachs that inflict dyspeptic torments, muscles and joints racked with the rheumatism, are infallibly restored to health by the celebrated elixer Hostetter's Stomach Bitters, a medicine prescribed by physicians, possessing infinite purity, and which no one takes in vain who is afflicted with any of the numerous complaints to which it is adapted. It frequently happens that specialed remedies fail to produce a permanent effect. This is because they are merely palliatives and do not remove the cause of the maladies, whose symptoms they alter a time cease to manifeste. This is notably the case with opiates and sedative drugs. It is not so, however, with Hostetter's Bitters, which are a searching specific that conquers the disease as well as banishes its *materia*.

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, etc. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment that cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your whole family a winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample bottles 10 cents; regular size 75 cents. OFFICE OF INSURANCE COMMISSIONER, San Francisco, Feb. 8, 1877.

I, J. W. Foard, hereby certify that I am Insurance Commissioner of the State of California, and have supervision of insurance business in the state, and as such Commissioner, further certify that the Pacific Mutual Life Insurance Company of California is a corporation properly organized under the laws of this state, as I believe, is a solvent condition and possessed of a paid up capital of One Hundred Thousand Dollars, equal to Gold Coin of the United States, is authorized to do business in the State. And, further certify that, upon a personal examination of the books and papers of the said company at the close of the year eighteen hundred and seventy-six, its statement as of this date, and now on file in this office, was shown to be correct and true, the company being possessed of good, valid assets amounting to one million two hundred and sixty-four thousand eight hundred and thirty-six dollars and eighty-six cents ($1,261,836 86), and having outstanding liabilities, as defined by the laws of the State, amounting to nine hundred and sixteen thousand seven hundred and fifty dollars and five cents ($916,750 05), exclusive of the Capital Stock.

As witness my hand and official seal, the day and year first above written.

The Daily Oregonian.

FRIDAY MORNING, MAY 25, 1877.

WADE HAMPTON'S DOMAIN.

Columbia correspondence of the New York *Times* gives a full account of the manner in which the Hampton party obtained control of the Legislature of South Carolina. This is the way it was done in the Senate:

On the 24th April, the Senate consisted of 17 Republicans and 12 Democrats. A full Senate consisted of 33 members, but at the former meeting held in December, it will be remembered that no decision was made in the Edgefield, Laurens and Abbeville contested election cases. The fourth Senator who went to make up the full Senate, died, and an election to fill his place was held under authority of the Democratic claimant. Simpson, who was not then acknowledged as Lieut.-Governor, took the chair. Without any warrant in law, without any right under the Constitution, without any precedent upon which to base his action, he called upon the four Democratic Senators from the counties of Barnewell, Edgefield, Laurens and Abbeville, and caused them to take the oath of office. The Republicans of the Senate protested, and declared that this action was arbitrary, illegal and unjust, but he refused to listen to their protest. Then they appealed from his decision and he ruled that such an appeal could not be entertained as the question involved was a constitutional and not a parliamentary one. This outrageous usurpation of power on the part of Hampton's second in command, increased the Democratic membership to 16. This much having been accomplished, Judge Tom Mackey seized Senator Walker, of Chester, on a trumped-up charge of fraud, which had been abandoned some years ago, and although the Senator had a constitutional exemption from arrest for 10 days before the meeting of the legislature, Mackey, like Simpson, acting without any legal warrant, threw him into jail. For his release the Senator's friends offered the best bail in the State, and it was refused. Then, that he might be present in the Senate, they tendered ready money as bail to any amount which might be asked. This also was refused, and not until after the organization of the legislature was Walker released on promise that he would resign. So the shot-gun leaders reduced the Republican majority, and the Senate stood 16 to 16, Simpson, the Democratic presiding officer, casting the deciding vote.

Now let us read an account of Hampton's manner of obtaining control of the lower house:

When the lower house met, none but Democratic or Wallace members were admitted. When organized upon this basis, they refused peremptorily to recognize any of the Mackey members, and afterward referred their cases to a committee which reported in favor of admitting certain members, who were first, however, obliged to "purge themselves of contempt by humbly begging pardon" for not having joined the Wallace House in the first instance. The members who were admitted were noted for their ignorance and utter lack of parliamentary knowledge and legislative experience. All the Republicans of intelligence, men like Thomas, of Newberry, and Stoker, of Orangeburg, were summarily ejected, no reason for such ejectment being given, except that they were "smart negroes, and might make trouble." For the same reason Mr. Johnson, of Sumter, and Mackey, of Charleston, the two leading white Republicans, were prevented from taking their seats. Indeed, the entire Charleston delegation, elected by an undisputed majority of 6,000 votes, has not yet been permitted to take their places. The consequence is that the Democrats have even greater control of the Assembly than they have of the Senate. They have a majority of about 20 on joint ballot.

In the face of all this, it is a somewhat remarkable fact that Hampton still continues to play the role of a fair-minded man and a patriot; he still continues to make fair promises; he still continues to declare that his only desire is to give good government to South Carolina, and that he will protect all men of all colors and all classes in all their rights. When questioned as to the unjust and arbitrary actions which had been taken in regard to Republican State officers, Republican State Senators, and Republican members of the Assembly, he declares, with a great show of candor and some indignation, that he does not approve of what has been done by Simpson and Company, but that he was unable to prevent them from acting as they did. While making this assertion, however, he is still the idol of all the white people in the State, and it is an undisputed fact that his word is law to 99 out of every 100 of his Democratic followers and supporters. So, in pursuance of "the peace policy," the reconciliation programme," Mr. Hampton calls upon the people of South Carolina to fraternize and come together, forget party lines and work harmoniously for the welfare of the commonwealth; and while he is engaged in this pleasing occupation, and by his fair promises pulling wool over the eyes of the people of the North, his followers "whom he is unable to control," are engaged in the consummation of acts more partisan, more unjust, and more illegal than I can describe. Sooner or later, the people who believe in the protestations of Mr. Hampton will be undeceived. Sooner or later the Northern Republicans who now trust to the promises of men who, like him, make promises only to gain power, will discover that the power so secured will be used as it was in days "when the master owned his man, and a lord could do what he liked with his own."

FOREIGN NOTES.

London is, perhaps, more than any other city in the world, the city of hospitals. There are no less than 88 hospitals in that city.

The supply train of the Russian invading army consists of 14,000 wagons and a large number of locomotives and railroad cars.

It was recently admitted in the British House of Commons that a considerable proportion of the Indian army was composed of Mohammedans.

FINANCE AND COMMERCE.

Financial,

THURSDAY EVENING, May 24, 1877.

Gold in New York, 106¾.

Legal Tenders in Portland—buying 93¾; selling, 94¾.

Silver Coin—1¼@5 per cent. discount.

The condition of financial matters on this coast, while not considered an active one, is not regarded as devoid of hopeful signs for the future. In the money centers the accumulation of capital has been going on quite steadily, and circumstances stimulating activity in trade and manufactures would quickly bring about an era of prosperity, but so much absorbed in wild speculation and the mania for enormous profits and quickly-made fortunes have the people been in former years, that it will be a matter of difficulty for them to educate themselves to the slower but far safer methods of making money which are presented in the life of the manufacturer and agriculturist. While Oregon has not money sufficient to build the railroads which she so much needs, she could now very readily procure quite enough to develop her agricultural and mineral resources and in aggregate manufacturing enterprises that would supply a great proposition of the goods and wares for which her people now send out of the State millions of dollars every year. And until this great outlay is checked to a considerable extent by home production, the periodical recurrence of dull times and periods of financial stringency may expected. At this time, however, the want for such purposes is not capital so much as men of patient enterprise and business sagacity, who are willing to undertake the work of revolutionizing the policy too generally adopted of declining all investments which do not promise immediate and large returns. Money is getting cheaper on the Pacific coast and capitalists will soon have to content themselves with slower gains. Let us hope that the recent collapse of the great stock bubble will hasten the time when this lesson shall have been fully learned.

Domestic Produce.

For the week which we have specially under review this evening the condition of things in this department of trade has been much less satisfactory than the preceding week; produce dealers seem rather willing to remain inactive than to venture very extensively into business while matters occupy the present attitude. Particularly to day the aspect of the market in nearly all lines of produce is dull, and the general tendency of prices is downward where any fluctuation is noticeable. Transactions in wheat for several days past have been so limited that any quotations given are to be regarded as nominal. A sale of a small lot was effected yesterday at $1 20 per cental, and a similar offer for another lot was withdrawn to-day. The general feeling of dealers and shippers here is that the surplus yet in reach of this market is so small that it is scarcely worth handling for shipment, and whether this be so or not it is likely that transactions from now until harvest will be confined to narrow limits, and most sales will be to millers for immediate use. The flour market, though not so strong or active as at the time of our last weekly review, has not shown so much dullness nor so marked a depreciation as wheat and with only a moderate supply at hand the quotations given are maintained with a good deal of firmness.

Oats are not in very free receipt, and the supply in the interior is reported low. The trade for a week past has fluctuated considerably, and to day prices are fully 5 cents per bushel lower than one week ago. San Francisco quotations, by private telegrams, are 2 cents per pound, which do not justify more than 85@65c per bushel here, and shippers are chary of accepting ordinary lots at more than the figures first named. Mill feed, though in very fair supply, is unchanged in price, and trade shows the usual seasonable dullness.

Provisions are weaker and the demand unexpectedly light with no prospect of much improvement for some time. The quotations given are on the basis of transactions, and are for fair merchantable lots, while occasional sales of choice are effected at an advance. Good sides meet some demand, shoulders are dull and hams still more difficult to place at full rates.

Dairy products are generally plentiful and the shipping demand is so light that increased receipts would soon reduce prices. Eggs are not so abundant, but the only want is the local trade, the San Francisco market being so low that shipments cannot be made.

Wool is coming forward rather more freely, but the general movement of the spring clip may not be regarded as hardly having yet begun. But little or nothing has occurred since our last report to change the outlook of the market, and with the fair demand which continues trade is likely to show increased activity very soon.

Hides, peltry, etc., are quite active, and prices show some improvement.

PRATT'S
MINERAL
COLOZA OIL.

300° FIRE TEST.

Chas. Pratt & Co., New York,

Sole Proprietors and Manufacturers.

To Consumers of High Fire-Test Mineral Oils.

YOUR ATTENTION IS PARTICULARLY INVITED to our 300° Fire-Test Oil, called "Pratt's Mineral Coloza," which we are now manufacturing expressly for STEAMSHIP, RAILROAD and MILL ILLUMINATION, or for use where an exceedingly high Fire-Test Oil is required. It has already been adopted by many of the Railroads throughout the country, and by most of the coastwise steamers sailing from New York, whose continuance of its use in preference to all similar Oils is sufficient commendation as to its quality. It *will not* burn well in the ordinary Petroleum Lamp, it being of too heavy gravity for such use; but in the German Student Lamps and those with double wick burners, we guarantee it to give perfect satisfaction producing a pure flame of great brilliancy. Our facilities for manufacturing are excellent, and equal to any demand, while the price is much lower than that of any oil in the market of the same character and fire test. The U. S. law in regard to the use of these Oils on passenger steamers is very explicit, as follows:

"Any Oil which will stand a Fire Test of Three Hundred (300°) Degrees Fahrenheit, may be carried as freight or *used as stores* on any steamer carrying passengers."

We beg to offer the following Certificates, which have been handed us from the very best authorities obtainable, in regard to the test of the Mineral Coloza Oil, and they may be considered perfectly reliable:

Report of Prof. S. Dana Hayes, Massachusetts State Assayer.

[COPY.] BOSTON, Mass., Oct. 19th, 1876

A sample of burning oil, marked "Mineral Coloza," manufactured by CHARLES PRATT & Co., of New York City, has been tested by me with the following result: It has a Fire Test of 328° Fahrenheit. It does not ignite under 320° F.

(Signed) S. DANA HAYES,
Massachusetts State Assayer.

Report of Inspector of Petroleum Oil, for State of Massachusetts.

[COPY.] BOSTON, October 4th 1876.

I have tested samples of *Mineral Coloza Oil*, from CHARLES PRATT & Co., New York City, and find the igniting point or Fire Test to be 315° Fahrenheit. (Signed) R. F. MEANS,
Mass. State Inspector of Petroleum,

Report on Sample of Mineral Coloza Oil, Tested for U. S. Inspector of Steamers 2d District.

[COPY.] NEW YORK, April 25th, 1876.

Mr. ADDISON LOW, U. S. Sub. Inspector.

DEAR SIR: We have tested the sample of *Mineral Coloza Oil* presented by you, and find it stands a Fire Test of 300° Fahrenheit, and we consider it in all respects a very superior Oil.

(Signed) LOCKWOOD, BROS. & HOLLY,
Petroleum Inspectors appointed by N. Y. City Produce Exchange.

To the Trade.

The undersigned beg to call your attention to all of the above, and thus advise you that they will at all times have a full supply of the above mentioned goods on hand, and would be pleased to have your orders.

WONDERFUL SUCCESS
OF
DR. PAUL M. BRENAN

In the Treatment of Chronic Disease.

Positive Proof of his Wonderful Skill.

Testimony that Cannot be Contradicted.

Reliable Witnesses Testifying What he has Done for Them.

Perfect Cures where all other Treatment had Failed.

Crowds Coming from all Parts of the Country to Visit Him.

The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN—

For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the Snohomish. JAMES KING.

Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the palate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus; that some of the blood vessels were involved and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a portion of it removed. He at once removed the bone tumor containing the ulcer; also the diseased portion of bone and pulverizory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.

THOMAS D. MURPHY.

Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir:* I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man.* For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me now labor seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.

Your's Truly, JOHN BALLARD.

Employed at Colman's Saw Mill, Seattle.

I will not publish any cures performed by me unless by the full consent of the parties.

PAUL M. BRENAN.

Dr. Brenan can be consulted, free of charge, at his office at the Clarendon Hotel, from 10 to 12 A. M. and at rooms 6 and 7 in Corbett's Block, corner of Front and Washington streets, Portland, Oregon, from 1:30 to 5, and 7 to 8 P. M.
